## Performance features

- » For use in complex construction objects with various requirements
- » Up to 8 A total drive current
- » Installation plate with motherboard, module slots, 2 slots for additional modules, supply slot and rectifier card
- » Optional connection to visual and acoustic alarm devices
- » Connection of up to 8 SHEV buttons and 14 fire detectors per line (Only detectors permitted by D+H may be used)
- » In lockable surface-mounted sheet steel housing
- » Min. 72 hr battery backup supply

## Performance features

- » Variable modular design for complex position requirements
- » Supporting rail system for various functional modules
- » Installation plate with motherboard, module slots, 2 slots for additional modules, supply slot and rectifier card
- » Addition of the drive current in 16 A steps
- » Max. 10 A drive current per group
- » Connection of up to 8 SHEV buttons and 14 fire detectors per line (Only detectors permitted by D+H may be used)
- » Integrated comfort functions for daily ventilation
- » Switchable SHEV safety functions: Fault equal to alarm, SHEV retriggering function and smoke detector remote reset

# 230 V AC SHEV system

NSV 401

GE 650-Set

G 500002

0786-CPR-50664

Find out about permission details from your D+H Partner

## Performance features

- » RZN 43xx-E in conjunction with 230 V AC emergency power supply NSV
- » VdS approval in accordance with the German VdS directives VdS 2581 and VdS 2593
- » Certificate of Constancy of Performance in accordance with EN 12101-10
- » One-of-a-kind system with a consistent 230 V AC energy supply between controller and drives
- » More performance - less wiring expense
- » Ideal for long cable paths
- » Particularly for heavy duty applications in roof areas

# Plug-in units

## Performance features

- » For D+H RZN-E and GVL-E control panels
- » Various SHEV and ventilation functions
- » Various designs
- » Easy installation
- » Can be retrofit easily

| Type | Art. No. | Description |
|------|----------|-------------|
|------|----------|-------------|

LE 513 30.625.60

**Line plug-in unit**

- » For recording and evaluating alarm triggers
- » Connection of up to 8 SHEV buttons and 14 fire detectors per line (Only detectors permitted by D+H may be used)
- » Functions:  
Line "ON/OFF"  
Displays for alarm and fault  
Control of group plug-in units for SHEV alarm

| Type | Art. No. | Description |
|------|----------|-------------|
|------|----------|-------------|

GE 628 V2 30.627.60

**Group plug-in unit**

- » For controlling SHEV drives in conjunction with the LE 513 line plug-in unit
- » Option to combine with additional groups
- » Max. 10 A drive current per group
- » SHEV retriggering function
- » Configurable ventilation "OPEN" and runtime limit "OPEN"
- » Mains outage "CLOSED" function

| Type | Art. No. | Description |
|------|----------|-------------|
|------|----------|-------------|

GE 628-L V2 30.627.70

**Group plug-in unit for ventilation**

- » For controlling ventilation drives
- » Option to combine with additional groups
- » Max. 10 A drive current per group
- » Configurable ventilation "OPEN" and runtime limit "OPEN"

| Type | Art. No. | Description |
|------|----------|-------------|
|------|----------|-------------|

WE 516 30.650.50

**Weather plug-in unit**

- » For recording and evaluating weather signals
- » Addition of weather functions:  
Configurable wind/rain sensor and control panel ventilation button;  
Weather automation "ON/OFF";  
Control elements for control panel "OPEN/CLOSED";  
Wind strength sensitivity and signal retention time;  
Wind/rain display "OFF"

| Type | Art. No. | Description |
|------|----------|-------------|
|------|----------|-------------|

SE 622                      30.627.80

**Servo plug-in unit**

- » As interface for Building management system / Building automation / Central control system, for continuous and accurate control of drives with position transmitters in conjunction with GE group plug-in units
- » Optional input:
  - Current-controlled 0-20 mA or 4-20 mA
  - Voltage-controlled 0-10 V for opening widths of 0-100 %
- » Indicator display for drive position; switch for manual/automatic mode; manual mode "OPEN-CLOSED"
- » Feedback for building automation as analogue 0-10 V signal

| Type | Art. No. | Description |
|------|----------|-------------|
|------|----------|-------------|

AE 525-A                      30.625.90

**Window-lock plug-in unit**

- » For controlling up to 30 window-lock units
- » Triggering via SHEV button and/or fire detector
- » LE 513 not required

| Type | Art. No. | Description |
|------|----------|-------------|
|------|----------|-------------|

AE 526-DG                      30.626.10

**Window-lock plug-in unit**

- » For controlling up to 8 pressurised gas generators
- » Triggering via SHEV button and/or fire detector
- » LE 513 not required
